Corporate care

The dilemma of how to cope with a sick child on a workday could soon be over. Abacus Ark Corporate Childcare offers "emergency nanny", who can be called at a moment's notice; "nanny to go", to help you take your kids on a business trip; and "new parent care" for first-timers. The services – which are available in Sydney, with plans to expand to Melbourne in late 2005 and other states to follow – are bought by companies for their staff. Prices start at \$37.50 per hour for an emergency nanny. Visit www.abacusark.com.au.
